

## Medtronic Canada has been named on the 2022 list of Best Workplaces in Ontario

**Brampton, Canada** – Medtronic Canada is proud to announce that it has been recognized as one of the Best Workplaces™ in Ontario after a thorough and independent analysis conducted by Great Place to Work®.

The Canadian operations of the global healthcare technology leader are headquartered in Brampton, and have been pursuing their Mission to alleviate pain, restore health, and extend life in Canada for over 50 years.

Medtronic credits the unique position it has earned as a partner in the Canadian health ecosystem to its workforce, who are representative of the patients that it serves.

“Our people are our most competitive asset,” says Sheri Dodd, president of Medtronic Canada. “We know that our inclusive and diverse workforce significantly contributes to our company culture, and also to innovation in healthcare technology.”

Marilise Kassouf, Strategic Marketing Manager in New Partnerships and Solutions, agrees.

“My team comes from different cultural backgrounds and walks of life,” says Kassouf. “Everyone on my team is driven by a passion for health innovation, equity and sustainability, and we bring our unique perspectives together to become better problem solvers and innovators.”

The Best Workplaces™ in Ontario list is based on direct feedback from employees of the hundreds of organizations that were surveyed by Great Place to Work®. Organizations on this list must be Great Place to Work-Certified™ in the past year, headquartered in Canada. Recognition as one of the Best Workplaces® in Ontario is one of many honours Medtronic Canada has received over the past year.
